2023 Fees

Fees charged by Hockey ACT increased by 5% from the 2022 season. However, given cost pressures experienced by members, Central will not pass on the increase this year to senior or junior teams. SL3 and SL4 fees will increase slightly so that Club umpires can be paid a similar amount as HACT appointed SL umpires. Other than this increase, fees for all senior and junior grades remain the same as 2022. This decision only applies for the 2023 season and the situation will be reviewed at the start of the next season to ensure that the Club remains financially viable.

HookIn2Hockey fees have increased slightly to cover costs but remain considerably below those of comparable clubs.
